Basics Proposal Details S2S Opportunity Search

Proposal Details 2
* Indicates required fields

How It Looks

1	H1: CSS class H1 headertext
2	H3: CSS class H3

How It Works

- Headings create visual cues for users that content is grouped and organized according to the heading label.

UIM Links

- [Text Styles \(UIM Style\)](#)

JIRA Links

-  cannot be retrieved due to an unexpected error
