

Home

Welcome to Kualo Sharing!

What can be shared?

Anything which will extend or enhance a Kualo project can be shared, even an *idea* that you would like to collaborate on.

- Enhancement
- Workflow
- Module
- Application: A separate downloadable application.
- Automated Test Script: Example would be a Selenium script to test login.
- Implementation Workaround:
- Documentation - Requirements
- Documentation - Technical
- Documentation - Test Plan
- Documentation - User
- Supporting Article
- Not Listed (Use this if you are unsure or wish to share something that does not fit into existing categories)

How do I share?

DO NOT report a Sharing Jira ticket for a security issue; email security@kuali.org.

Are you a **Kualo partner** that would like to contribute to a **delivered Kualo product**? See the appropriate Partner Contribution Process:

- Rice
- KFS

Otherwise...

1. Create a [Kualo Account](#)
2. Create a [Jira ticket](#) in the Kualo Sharing queue

How do I see what others are sharing?

- Rice
- KFS

Anyone with a [Kualo Account](#) can **Vote** or **Comment** on a Sharing Jira ticket. So please Login to Jira and Vote or leave a Comment.
