

# Rice 2.0 Beta Testing

## Welcome!

This collaboration site is intended as a spot for Rice 2.0 Beta testers, the Rice team, and anyone else interested in sharing information about their migration from previous versions of Rice to 2.0. Please see the sections below and contribute! [Rice 2.0 Beta Testing Guidelines](#)

  - Conversion Issues: [KFS Project Rice 2.0 Conversion Issues](#)
  - Conversion Patterns (incomplete): Adapted from the KC script below:
    - <https://test.kuali.org/svn/kfs/branches/release-5-0/UpdateRiceReferences.groovy>
    - <https://test.kuali.org/svn/kfs/branches/release-5-0/kew-patterns.xml>
    - <https://test.kuali.org/svn/kfs/branches/release-5-0/kim-patterns.xml>
    - <https://test.kuali.org/svn/kfs/branches/release-5-0/kns-krad-patterns.xml>
    - <https://test.kuali.org/svn/kfs/branches/release-5-0/patterns.xml>
    - <https://test.kuali.org/svn/kfs/branches/release-5-0/rice-core-patterns.xml>
  - The above versions of the script still leave about 2,000 compilation errors in KFS. (down from 57,000)
