3. Last meeting, we'll be sending out a follow-up survey about the Beta process, etc.
4. Other Walk-on Items

Notes

chitra - most of our testing is if functionality is working and such, not time to do performance. working on embedded mode now...

eric - how close are you to getting embedded to work or are you waiting on B7?

chitra - we need the B7 to go forward

eric - are we doing beta like things for 2.1 or 2.2

jessica - we're looking at milestones for sure, but don't have beta plans for now

eric - do we have plans for this list then?

matt - not for the first 1/2 of '12, but I could see it being used beyond that for bigger releases, including like a 2.3; just depends on the impact/size of the release and what's in it is what I'm thinking.
