

OLE - DevOps Next Steps

CI Transition

- Migrate from <http://ci.rice.kuali.org/> to <https://ci.kuali.org>
- Greatly improved CI service (LTS + significantly faster)
 - SSD, 350% more CPU, double the number of CPU cores

POM + Maven Versions

- CI supports Maven 3.2.1
- POM version 3.4.x supports it as well
- Minor regression testing the build/deploy/db cycle

Database Process Improvements

- Just didn't want this to fall off the radar
- There are some improved database techniques already in place with more on the way
